

EasyID-MOBILE
POINT-OF-CARE SOFTWARE

PHG Technologies introduces EasyID-Mobile, a fully customizable application using matrix/2-D barcodes for point-of-care patient ID confirmation and specimen label printing. This affordable system employs encrypted wireless communication in conjunction with handheld scanners, portable printers and a host server.

More information is available on the website – [Products/Software/EasyID-MOBILE](#), or by contacting PHG at 800/349-4531.
